Denna bulletin är ett forum för medlemmarna i Moose-Net, ett nät som har sin huvudpunkt i Ludvika, södra Dalarna. Denna Bulletin skall ses som den enda motsvarighet till medlemsmatrikel som ni någonsin kommer att få se röken av.

Artiklar som ni tycker är värda att vara med skall insändas till:

Anders Pettersson@65:100/103@moosenet.ftn / 2:205/309@fidonet.org ifall ni nu inte har lust att skicka netmails med älgen.

Det som sägs i denna bulletin får i vissa fall tas med en portion humor.

Allt är inte allvarligt menat, utan det mesta är skrivet i en "godmodigt" glad ton för att lätta upp en smula. Så om innehållet verkar på något sätt kränkande eller anstötligt, tala gärna om det för oss som skriver i den, men försök samtidigt ta det med en smula humor. Det gör vi. Vi skriver inte t.ex Mr Poyz för att terrorisera och göra ner någon som det gått illa för, utan för att skratta tillsammans med honom åt någon dumhet som hänt.

(Dessutom får han ju faktiskt en disk oxo, så vad mera kan begäras? :-) )

=====

Synpunkter

=====

Skicka dessa till mig, eller min polare. Dvs, Anders Pettersson@65:100/103 eller Jonny "Bingo" Bringås@65:100/0

=====  
Bidrag till bullen  
=====

Bidrag till bulletinen kan lämnas när som helst. Gör enligt följande:

1. Skriv ner din artikel eller liknande (CodePage 437 tecken tillåtna, eller ISO 8859-1 / PC, resp Amiga-tecken med andra ord).
2. Skicka detta som netmail, eventuellt krypterad med PGP och med Valhalls nyckel, enligt följande:

From: Ditt Namn  
To: Daemon.Moose.Bulletin  
Subj: rubrik på din artikel

=====  
Demonen  
=====

Daemon är en mailerdemon här på Valhall, som vaknar så fort ett brev adresseras hit och har en To: kludge som börjar med ordet "daemon" fortsättningen på det anger vilket script som sedan skall utföras. Det som händer är att ditt netmail kommer att sparas ned till bulletinen.

Vi skickar en hälsning tillbaka som signal på att artikeln kom fram. Säkaste sättet att få fram en artikel är dock genom crashmail direkt hit på någon av adresserna:

2:205/309 @ fidonet.org  
2:205/451.5 @ fidonet.ftn  
7:106/101 @ fujinet.ftn  
23:3000/102 @ dalanet.ftn  
39:162/115 @ amynet.ftn  
65:100/103 @ moosenet.ftn

\*\* Jag hoppas att ni kommer att skicka in rikligt med bidrag till bulletinen, den är vad NI gör den till, glöm inte det! \*\*

=====  
Format  
=====

Bulletinen skickas ut i Moose-NET i format enligt 80 kolumner och med IBM-PC CodePage 437 som teckenstandard. Den kan även fås med ISO 8859-1 standard på förfrågan, filspaning eller DL hos Valhall BBS / 65:100/103. Ytterligare en variant finns, och det är i AmigaGuide-format, ett format som egentligen är en liten databas, däremot går det mycket snabbt och smidigt att söka på de olika artiklarna.

Magiska namn för filspaning på Valhall BBS

MBULL_IBM	Senaste Moose-NET bulletinen, codepage 437
MBULL_ISO	Senaste Moose-NET bulletinen, ISO 8859-1, Amiga
MBULL_AGU	Senaste Moose-NET bulletinen, AmigaGuide, Amiga
MBULL_SIS	Senaste Moose-NET bulletinen, SIS-11, 7-bits, måsvinge
MBULL_MAC	Senaste Moose-NET bulletinen, Mac II, MacIntosh

OBS!

Dessa namn kan ta ett tag innan de blir upplagda och fungerar för filspaning. Hav förtröstan, skicka ett mail om ni inte får något så mailar

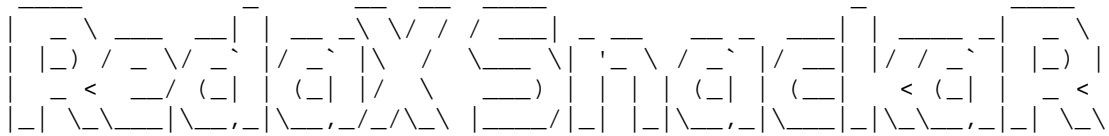

jag den version ni vill ha.

Anders Pettersson

Vi har har på "redaktionen" jobbat mycket hårt med denna utgåva av MosseE-NET bulletinen, och jag tror att det faktiskt märks. Förra utgåvan var betydligt tunnare än denna, som då följaktligen är mycket tjockare. Ja... eller rent av kanske man skall kalla den fetare, trots att det är ganska subjektivt i bittarnas och bajtarnas värld.

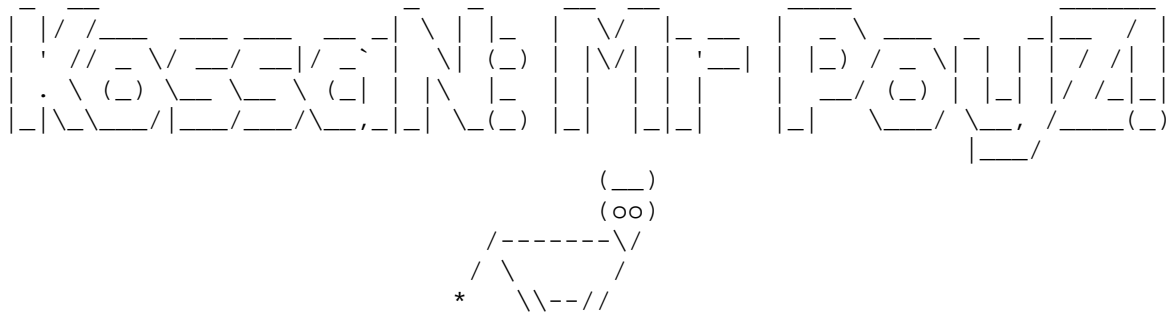

Nåja, jag hoppas bara att alla har någon glädje av den och finner en stunds förströelse i de artiklar som vi samlat ihop, skrivit ihop eller rent av bara rakt av, skärt och utan tveckan snott och klippt in.

Vi har som vanligt en Mr. PoyZ! som denna vecka Jonny Bringås berättar om. Han kan som vanligt hämta ut en 320kb diskett hos "Bingo" Bringås med valfria pryttlar från BBS-en :) Kravet är att han kommer och hämtar den själv, då porto är dyrt i dessa dagar.

Till sist vill jag avsluta med följande:

```
----- (7)      This hexagram refers to a situation of extreme
--- --- (8)      boredom.  Your programs always bomb off.  Your wife
----- (7)      smells bad.  Your children have hives.  You are working
---O--- (6)      on an accounting system, when you want to develop
---X--- (9)      the GREAT AMERICAN COMPILER.  You give up hot dates
--- --- (8)      to nurse sick computers.  What you need now is sex.
```

\*\*\*\*\*

Jonny Bringås

Denna vecka drabbar han oss igen....Mr. PoyZ...med nya dråpligheter. Mr. PoyZ...spaltmeter av text har rasslat ur våra skrikande, bläckdrypande matrissskrivare om denne naturlagarnas upphävare, fiendens fiende, datakraftens Nemesis.....MR. POYZ!

Denna vecka går titeln som Mr. PoyZ till den medlem i nätet som har den absolut mest ostädade lägenheten.....

Vi låter nu historien om denna veckas Mr. PoyZ ta sin början.....

#### VÅDAN AV ATT SÄLLAN ELLER ALDRIG STÄDA

Mr. PoyZ sitter som vanligt böjd över sitt kaffe & Cola-besudlade tangentbord. Luften runt omkring honom känns tung och vedervärdigt kvalmig. Mr. PoyZ hostar ut ett moln av gammalt damm ur sin, av föruttnelse luktande mun. Han häver sig mödosamt upp på fötter, för att genast snubbla över en dammrätta, stor som en reguljär Electrolux MK II dammsugare. PoyZ sparkar förargat till dammrättan, som med ett ilsket pip biter PoyZ i ena skink-vecket. Han faller till golvet med ett stön....-bannade dammråttor! skriker han gällt!

Han beväpnar sig raskt med en pizzagaffel, som någon besökare i skräck slängt ifrån sig på golvet. Precis när han fört upp gaffeln i skyddsläge framför ansiktet, hugger sig ett, milt sagt uppretad korvpapper, fast i handtaget. PoyZ viftar frenetiskt med gaffeln för att befria den från detta avgrundsodjur.

Emellertid ser korvpapperet, i samma stund, i ögonvrån en härlig, klibbig pöl av halvstelnad ketchup, och släpper raskt sitt grepp, och inleder en stört- dykning mot den hägrande pölen. Precis när den sätter ned stjärtlappen i densamma, slår PoyZ till, hårt och skoningslöst med ett par stelnade, fläckade, kalsonger av icke identifierbar modell. Korvpapperet stirrar med fasa lysande i Sibyllamärket, upp på PoyZ fläckiga anletsdrag. -Skona mig! gnäller det. - Visst! säger PoyZ, och sticker till med gaffeln precis i trakten av Y.

PoyZ torkar av gaffeln mot byxbaken och släpar sig mödosamt fram genom sin icke alltför gemytliga lägenhet, mot sitt mål, den elektriska fläkten. Efter att mödosamt ha nedkämpat ytterligare tre stycken dammråttor, och något som såg ut som en soppåse med huggtänder, når han i gryningen utmattad fram till sitt mål.

Han slänger sig fram med ett rytande och slår till strömbrytaren, han hinner precis ducka för en skur av attackerande strumpor som med ett svisch stryker förbi hans nu ganska genomsvettiga panna. PoyZ ser sig skrämmd omkring...vad döljer sig mer i denna djungel av exkrementer, vad dväljs icke i de högar av tvätt som lämnats att dö en kvalfull död i det överbelamrade köket, vad jäser icke under det av åldersringar fyllda toalettlocket...

PoyZ ryser till av fasa... Nu gäller det att oskadd ta sig tillbaka till datorfåtöljen. Han inleder försiktigt sin långa reträtt. En gammal ruttnande kebab-förpackning har studerat hela PoyZ's vandring, och bara väntat på rätt tillfälle att slå till, nu förbereder den sig sakta på det avgörande, dödsbringande hugget.

PoyZ kryper sakta, och med en beskyddande hand över sitt ömmande skinkveck, sakta och försiktigt i nordlig riktning, dvs mot den trygga data-fåtöljen, ovetande om den lömska kebab-förpackningens hemska planer. Plötsligt blir han varse en rörelse i ögonvrån, och hör sedan kebab-förpackningens välbekanta stridsvrål eka i rummet...

- Fäffärråååni!! Kebab-förpackningen biter sig fast i PoyZ överläpp, och börjar frenetiskt att tugga på den. PoyZ utgjuter sin fruktan genom sin ömmande rectum, och skriker sedan till av fasa. Han tittar rakt in i den osannolika varelsens rödstrimmiga tittorgan...och skriker igen.....och igen.....

And in the end.... there was silence...

/Jonny Bringås

[illegible]

Vad är nytt för denna vecka i nätet? Tja, det ryktas om att en helt okänd människa skall släppas in vid namn Bennison... hmm :-) Jag tror dock jag känner den människan från mötet R20\_TRASHCAN om jag inte missminner mig helt, inan vår käre HOST strulade bort det superba mötet. Nu verkar det dock som om det är på väg igång igen, och det låter ju bra. Bennison skall iväg till I13 i Falun och göra sin militärtjänstgöring, så han kommer väl inte att vara den mest aktive, men i alla fall göra så gott han kan på helgerna.

Så har nätet tagit sina första stapplande steg, tyvärr verkar det som om jag själv har något strul med postgången, så jag måste ta tag i det och försöka få fart på den igen, den fungerade nyss :) förmodligen något med PIP'en, den mailer jag kör.

\*\*\*\*\*

\*\*\*\*\*

Anders Pettersson

David Tiberio är en välkänd Amigaknutte i näten, skriver mycket i fidonet, är aktiv i UseNet, och som dansken säger; Driver med det mesta. Han har satt samman en lista på berömda användningsområden med Amigor inblandade, listan är ganska intressant att läsa så jag tänkte publicera den här. Mycket av amigans användningsområden handlar om VR, men en hel del är även nätverksdrift, specialeffekter, koordinator och så vidare...

---

List of Famous Amiga Uses compiled by David Tiberio.  
Compilation Copyright 1993 Area52. All Rights Reserved.  
Send all updates to dtiberio@libserv1.ic.sunysb.edu.  
December 7 1993.

This compilation may be distributed and published freely so long as you give credit to the author, David Tiberio.

+-- NEW LISTINGS -----+

"The Abyss", motion picture (year and studio unknown).

Turbo Silver 3 used to model water tentacles and aliens.

Anima (assumed Israeli post production house).

Video post production house.

Amiga 3000's and Amiga 1200's used to create previews and for animation classes.

Atari.

Lynx software development using Amiga 2000's.

CalArts College, (city unknown), California.

Courses in animation, 3D modeling, and video production using Amigas and Video Toasters.

Computer Art in Israel (city unknown).

Video post production.

Hebrew character generator.

Consumer show in Tel-Aviv, Israel, July 1993.

Two video walls containing 64 monitors displaying Amiga generated graphics overlayed onto Coca Cola commercials. Amiga 3000 and Scala MM211 controlled two video disc players and two video splitters.

GE Aerospace, Route 38 in Cherry Hill, New Jersey.

Amiga produced videos for meetings and presentations.

Guinness World of Records, (city unknown), England.  
Amiga controlled touchpads.

Indiana Jones Stunt Spectacular, DisneyWorld/MGM Studios, Orlando,  
Florida.  
Amiga 2000's used to control audio effects using proprietary  
software.

Israeli cable television (name unknown).  
Amiga generated graphics used in promotional spots using Imagine.

Israeli Defense Forces.  
Amiga generated educational videos.

Israeli shopping malls (names unknown).  
Amiga 1200 and Scala used to control multiple monitors for TV  
programs and special sales announcements.

Israeli television (station identification unknown).  
Used to display live images on a children's game show (name unknown). Also used for set design.

Microsoft.  
Video Toasters used for internal video production.

NCR, Dayton, Ohio.  
Video Toasters used for internal video production.

NCR, El Segundo, California.  
Video Toasters used for internal desktop publishing course development.

Net Trek server in University of Toronto (unconfirmed).

"Nightmare Before Christmas", motion picture, (producer unknown).  
ImageFX (use unknown).

Ontario Science Center, Toronto, Canada.  
Amiga controlled robot arms and weathermaps.

Paradise Hotel, Eilat (assumed Israeli city).  
Amiga 1200's and Scala used in interactive kiosks (topics unknown).

Paul Stookey, of "Peter, Paul, and Mary".  
Amiga used in private recording studio in Maine (city unknown).

Philips, Sidewalk Studio, Santa Monica, California.  
CD-I software development using various Amigas.

"Prince of Darkness", motion picture (year and studio unknown).

"Robocop", motion picture (year and studio unknown).  
Amiga generated special effects.

"Robocop 2", motion picture (year and studio unknown).  
Amiga generated special effects.

State University of New York at Stony Brook.  
Campus television station (unconfirmed).

Television Stations  
KDKA in Portland, Oregon (channel unknown).  
KNBC in Los Angeles, California (channel unknown).  
KOMO in Seattle, Washington (channel unknown).  
KRON in San Francisco Bay Area (channel unknown).  
WBZ in Boston, Massachusetts (channel unknown).

VR Slingshot, 3D virtual reality consumer game.  
Amiga based networked space flight simulator.

+-----+

ABC

ABC Sports 1992 Olympic Games.  
Live Amiga generated instant overlays.

"Young Indiana Jones Chronicles".  
Emmy Award winner, Special Visual Effects.

## Athletics

Athletics Stadiums.  
Atlanta Braves Sports Display.  
BC Place Stadium video displays in Vancouver, Canada.  
California Angels Anaheim Stadium.  
Cotton Bowl.  
Dallas Mavericks Reunion Arena's Scoreboard.  
Florida Marlins Joe Robbie Stadium Event Scoreboard.  
Harlem Globtrotters events.  
Miami Dolphins Jumbotron.  
Philadelphia Phillies Scoreboard and Phanavision.  
Portland Trailblazers, Portland Oregon, sporting events.

Atlanta Georgia 1996 Olympics Planning Board.

Chelsea Soccer Club, England, sponsored by Commodore UK.

## Awards

"Babylon 5", Warner Bros., 1993.  
Emmy Award Winning Movie.

Cox Cable Productions, New Orleans, LA.  
ACE Award nomination for Sports Productions.

NewTek, Inc., of Topeka Kansas.  
Emmy Award winner for developments in television engineering.  
Creator of the Video Toaster and the Screamer.

"Panama Deception".  
Oscar Award Winning "Best Documentary Film".

"Young Indiana Jones Chronicles".  
Emmy Award, Special Visual Effects.

## Cable Television

American Cablevision.

Brookhaven Cable, Long Island, New York.  
Prevue Guide, Real Estate Channel, Classified Ads Channel.

Brooklyn Queens Cable, Brooklyn, New York.  
Pay Per View.

Comedy Central Cable Network.  
Video Toaster generated overlays and graphics.

Cox Cable Productions, New Orleans, LA.  
ACE Award nomination for sports productions.  
Still store of basketball players.  
Online CG for remote live EFP events, basketball, football, telethons.

Israeli cable television (name unknown).

Amiga generated graphics used in promotional spots using Imagine.

TCI cable television.

## Corporations and Government

ABC, American Broadcasting Company.

American Cablevision.

Atari.

Lynx software development using Amiga 2000's.

Atlanta Georgia 1996 Olympics Planning Board.

Previsualization, storyboarding, and advertising.

BC Hydro, Vancouver, Canada.

Interactive video displays.

Brookhaven Cable in Long Island, New York.

Brooklyn Queens Cable, Brooklyn, New York.

Pay Per View.

Canadian Broadcasting Corporation, CBC Broadcast Center in Toronto.

Information Kiosks, for finding studios and offices.

Dow Chemical Inc., Michigan.

Closed circuit news broadcasting.

Developed by Michael Fischer.

Ford Motor Company, in automobile assembly plants (InfoChannel).

InfoChannel, Scala Inc..

International Business Machines.

Multimedia displays.

Israeli Air Force.

Amiga generated flight simulators for pilot training.

Israeli Defense Forces.

Amiga generated educational videos.

JPL, technology and astronomy lab.

Distant Suns, astronomy software.

LILCO, Long Island Lighting Company, New York.

Corporate training videos.

Microsoft.

Video Toasters used for internal video production.

NASA, National Aeronautics and Space Association.

AmiLink control systems.

NBC, National Broadcasting Company.

NCR, Dayton, Ohio.

Video Toasters used for internal video production.

NCR, El Segundo, California.

Video Toasters used for internal desktop publishing course development.

NewTek, Inc., of Topeka Kansas.

Creator of the Video Toaster and the Screamer.

Emmy Award winner for developments in television engineering.

Nuclear Electric, Ipswich.

Amiga controlled MCR simulator for Sizewell B Control Room.

Pay Per View.

Amiga generated video sequences.

PBS, Public Broadcasting System.

Various television series.

Philips, Sidewalk Studio, Santa Monica, California.

CD-I software development using various Amigas.

Prevue Networks of Tulsa, Oklahoma.

Creators of Prevue Guide.

St. Clair Interactive Communications.

K-Mart Coupon Center.

SEATS Theater Seat Booking System.

TCI cable television.

Toaster Marmalade of California.

United Video of Tulsa, Oklahoma.

Makers of Prevue Guide.

Universal Studios.

VIDIGraphic.

Virtuality.

Dactyl Nightmare, virtual reality coin-op game.

Walt Disney Productions.

Animated movies and television series.

Warner Bros., motion picture company.

"Animaniacs", animated cartoon television series.

"Babylon 5", motion picture, television series.

## Disney

Indiana Jones Stunt Spectacular, DisneyWorld/MGM Studios, Orlando, Florida.

Amiga 2000's used to control audio effects using proprietary software.

"Not Quite Human", movie starring Alan Thicke.

Amiga 1000's used as props.

## ESPN

ESPN's "Fly Fishing Video Magazine".

## Events

Friendship Games, Kuwait.

Pan American Games.

"Phantom of the Opera" at the Pantages, Toronto, Canada.  
Controls audio effects.

IBM OS/2 Multimedia Presentation at CEBIT, Hannover.  
Using InfoChannel multimedia software.

## Exhibits

Amiga Expo Mexico.

Consumer show in Tel-Aviv, Israel, July 1993.  
Two video walls containg 64 monitors displaying Amiga generated  
graphics overlayed onto Coca Cola commercials. Amiga 3000 and  
Scala MM211 controlled two video disc players and two video  
splitters.

Epcot Center Interactive Displays.

Exploratorium, science museum.  
Amiga 1000's and AmigaBASIC used for displays.

BC Hydro multimedia exhibit in Vancouver, Canada.

Bit.Movie computer art competition in Riccione, Italy.

Guinness World of Records, (city unknown), England.  
Amiga controlled touchpads.

Hawaii volcano museum (name unknown).  
Amiga used to display earthquakes and tremors in real time.

IPISA, Incontro dei Programmatori Italiani per lo Sviluppo Amiga.

Mac World Expo.  
Apple Computer video wall demonstrations.

Ontario Science Center, Toronto, Canada.  
Amiga controlled robot arms and weathermaps.

Science World video display in Vancouver, Canada.

World of Commodore-Amiga Show  
New York City, New York.  
Pasadena, California.  
Sydney, Australia.  
Toronto, Canada.

## FOX

"Animaniacs", animated television series by Warner Bros.  
ImageFX used for color correction and segment title cards.

## HBO

HBO, Home Box Office.  
"Afterburn" flight scenes by Toaster Marmalade of California.

## IBM

OS/2 Multimedia Presentation at CEBIT, Hannover.  
Scala multimedia software.  
  
Minnesota Mainframe Site Multimedia Presentations.  
Scala multimedia software.

## Kiosks and OEM

Amiga.Physik.Unizh.Ch  
Internet FTP site supported by Amiga 3000UX.  
Founding host site of Aminet mirrors.  
Supervised by Urban D Mueller.  
  
Australian international airport (InfoChannel).  
  
Arcade Coin-Up Video Games.  
Mad Dog McCree, laser disc based video game.  
Controlled by a genlock-equipped Amiga 500.  
Magic Johnson's Basketball.  
  
Canadian Broadcasting Corporation, CBC Broadcast Center in Toronto.  
Information Kiosks, for finding studios and offices.  
  
CD32, CD based game console.  
First 32-BIT game console.  
Introduced July 1993.  
Based on the AGA chipset as found in the Amiga 1200.  
  
CDTV, CD based interactive multimedia player.  
First CD based multimedia player.  
Introduced 6 months before CD-I.  
Based on the OCS chipset as found in the Amiga 500.  
  
Consumer paint color coding service, used at hardware stores.  
  
Design Mirage's Kodak Film Racing Team.  
  
Expandaview Videowall System, Optinocal Ltd. of England.  
Point of Sale and Point of Information systems.  
"Graphic Master".  
"Studio VIP Plus".  
  
Full Service Network, Time Warner Studios.  
Cinemorph used for in-house films, produced by Co-directions.  
  
Franklin Mill Outlet Mall, Philadelphia, Pennsylvania.  
Information booths.

Israeli shopping malls (names unknown).

Amiga 1200 and Scala used to control multiple monitors for TV programs and special sales announcements.

London Transport Museum Interactive Displays.

109 CD32 consoles.

Networked kiosks developed by Index Information.

Martinez California County District Attorney's Office.

Database of Delinquent Parents, using NewTek Video Toasters.

Me TV, Video Karaoke, Media Image Productions.

Oceana Naval Air Station in Virginia Beach, Virginia (InfoChannel).

Paradise Hotel, Eilat (assumed Israeli city).

Amiga 1200's and Scala used in interactive kiosks (topics unknown).

POST In Store Advertising Network for Supermarkets.

SEGA Genesis software development systems.

Amiga 500 based expansion boards for game development.

User Interface Technologies "Media Magician", home control system.

Videoplex Tour of Alaska.

Video Toaster Workstations by NewTek of Topeka, Kansas.

Amiga based systems with Video Toaster expansion board.

VIDIGraphic's McDonalds' Drive-Thru Video Displays.

## Movies

### Feature Films

"The Abyss", motion picture (year and studio unknown).

Turbo Silver 3 used to model water tentacles and aliens.

"City Slickers", motion picture, starring Billy Crystal.

"Fantastic Four: The Movie", motion picture.

"Freejack", feature film, starring Emilio Estevez.

Lightwave generated animation of main character's race car.

Video Toaster generated time-warp displays.

Graphics created by Joe Conti.

"Honey, I Blew Up the Baby".

Effects produced by Anti-Gravity Workshop.

"Hot Shots, Part Deux", motion picture.

"Jurassic Park", directed by Steven Spielberg.

Previsualization by Amblin Imaging.

"Motel Blue 19", horror film.

Cinemorph used for morphing sequences.

"Mouth of Madness", directed by John Carpenter.  
Amiga created book covers, posters, and stage setting graphics.

"Necronomicon", feature film.

"Panama Deception".  
Oscar Award Winning "Best Documentary Film".

"Prince of Darkness", motion picture (year and studio unknown).

"Robocop", motion picture (year and studio unknown).  
Amiga generated special effects.

"Robocop 2", motion picture (year and studio unknown).  
Amiga generated special effects.

"Sidekicks", starring Chuck Norris.

"Star Trek VI".  
Lightwave generated graphics by Joe Conti.  
USS Enterprise and USS Excelsior modeled by Allen Hastings.

"Stepfather III".  
Amiga 500 used as prop with Deluxe Paint and Digi View.

"Three Men and A Baby".  
Amiga character generation and titling by Rick Probst.

"Total Recall".

"Warlock", produced by Trimark.

"Wayne's World II", starring Dana Carvey and Mike Myers.  
Produced by Paramount Pictures.

#### Television Movies

"Afterburn".  
Home Box Office Presentations.  
Flight scenes by Toaster Marmalade of California.

"Babylon 5", Emmy Award Winning Movie, Warner Bros., 1993.

"The Dark Half".  
Stephen King television movie.  
Character effects by Everett Burrell.

"Max Headroom", motion picture and television series.

"seaQuest DSV", Irvin Kirschner (director), Universal Studios, 1993.  
Starring Roy Scheider.  
Effects produced by Amblin Imaging and 60 Video Toasters.  
More special effects than "The Empire Strikes Back".

"Tommyknockers".  
Stephen King television movie.  
Morphing sequences using ASDG's MorphPlus, by The Post Group.

"Young Indiana Jones Chronicles", Emmy Award, Special Visual Effects.

## MTV

Bee Gees, using NewTek Video Toaster animated sequences.

Billy Idol.

Rick Finn.

Todd Rundgren.

"Change Myself", music video.

"Fascist Christ", music video.

"Property", music video.

"Theology", music video.

ZZ Top.

## NBC

"Amazing Stories".

"Quantum Leap".

Morph effects produced by The Post Group using MorphPlus.

"seaQuest DSV".

Video Toaster effects created by Amblin Imaging.

"This Country's Rockin'", television special.

"Unsolved Mysteries".

Video Toaster effects created by Joe Conti.

## NewTek

Lightwave 3D, 3D modeling software.

Screamer rendering system for Lightwave 3D.

Video Toaster and the Video Toaster 4000.

Personal video production system.

## PBS

"Ghost Writer", television series.

"My Secret Identity", television series.

"Where in the World is Carmen Sandiego", PBS & Walt Disney Productions.

## People

Andy Warhol, painter (deceased).

Arthur C. Clarke, science fiction author.

"The Hammer of God".

"Ghost from the Grand Banks".

Bela Fleck and the Flecktones.

"Three Flew Over the Cuckoo's Nest", graphics by Bob Anderson.

Betty Boo, musician.

Amiga used in production of her first album.

Amiga used as a sequencer in her first tour.

Billy Idol, musician.

NewTek Video Toaster.

Amiga generated video walls.

Appeared on "The Tonight Show with Jay Leno", October 1993.

Brad Carvey, brother of Dana Carvey.

An original designer of the NewTek Video Toaster.

Joe Rockhopper, Area52 spokesmodel.

"Lurch Addams", actor in the movie Addams Family.

In real life owns an Amiga and a Video Toaster.

Matt Groening, creator of "The Simpsons".

Paul Stookey, of "Peter, Paul, and Mary".

Amiga used in private recording studio in Maine (city unknown).

Penn Jillette, Magician/Comedian (of Penn and Teller).

Star Trek: The Next Generation actors.

Carel Struycken, "Mr. Homn".

Wil Wheaton, "Ensign Wesley".

Steven Spielberg, motion picture director.

"Jurassic Park", previsualization by Amblin Imaging.

"seaQuest DSV", special effects, underwater craft.

Todd Rundgren, musician.

"Change Myself", music video.

"Fascist Christ", music video.

"Property", music video.

"Theology", music video.

## Production Studios

Amblin Imaging.

Creator of "seaQuest DSV" special effects.

"Jurassic Park" previsualization presentations.

Anima (assumed Israeli post production house).

Video post production house.

Amiga 3000's and Amiga 1200's used to create previews and for animation classes.

Foundation Imaging, California.

Creator of "Babylon 5" special effects.

## Public Access

Iowa City Public Access TV.

Graphics and video by Benn Dunnington, former .info publisher.

Public Access Programming.

"Cyberspace 3D", in Portland, Oregon.

## Schools

CalArts College, (city unknown), California.

Courses in animation, 3D modeling, and video production using Amigas and Video Toasters.

Charles Sturt University, (city unknown), Australia.

Electronic art, multimedia, and medical imaging.

Image analysis and geographic information systems.

College of Saint Rose in Albany, New York.

Drake University, (city unknown), Iowa.

2 television stations produced using Video a Toaster.

Titles and special effects for student productions.

Olympia High School of Olympia, Washington, desktop video production.

State University of New York

Albany, Mathematics Department.

Oswego, Graphics Department.

Stony Brook, campus television station (unconfirmed).

State University of New York at Albany.

Mathematics Department (usage unknown).

State University of New York at Oswego.

Graphics Department.

Animation and Video Toasters.

Macintosh emulation using AMAX IV.

State University of New York at Stony Brook.

Campus television station (unconfirmed).

Tulane University.

TSTV, Tulane Student Television.

Live switcher for video broadcasts.

Live switcher for Tulane Women's Basketball.

Tulsa Junior College of Oklahoma, desktop video production.

Desktop Video Production Associates Degree.

Two year degree on using the Amiga and the Video Toaster.

University of Toronto (unconfirmed).

Net Trek server.

Walton High School, Marietta, Georgia.

## Television

### Commercials

1992 Olympic Games promotional advertisements.

Encyclopedia Britannica commercials.  
Amiga 2000 used as prop computer.

Pay Per View.  
Amiga generated video sequences.

## Movies

"Afterburn".  
Home Box Office Presentations.  
Flight scenes by Toaster Marmalade of California.

"Babylon 5", Emmy Award Winning Movie, Warner Bros., 1993.  
All computer graphics generated on Amiga computers.  
Lightwave 3D generated scenes of space ships.

"The Dark Half".  
Stephen King television movie.  
Character effects by Everett Burrell.

"Max Headroom", motion picture and television series.  
Amiga generated background displays.

"seaQuest DSV", Irvin Kirschner (director), Universal Studios, 1993.  
Starring Roy Scheider.  
Effects produced by Amblin Imaging and 60 Video Toasters.  
More special effects than "The Empire Strikes Back".

"Tommyknockers".  
Stephen King television movie.  
Morphing sequences using ASDG's MorphPlus, by The Post Group.

"Young Indiana Jones Chronicles", Emmy Award, Special Visual Effects.

## Programs

"Amazing Stories", television series, NBC.

"Animaniacs", animated television series by Warner Bros.  
ImageFX used for color correction and segment title cards.

"Babylon 5", science fiction television show by Warner Bros., 1993.  
Emmy Award winning show, special effects.  
Created by Foundation Imaging in California.

"Clarissa Explains it All", Nickelodeon.

"Cyberspace 3D", public access programming in Portland, Oregon.

"The Edge" promotional commercial.  
Produced by Digital Fantasy.  
Amusement park ride in California.

"Entertainment Tonight", entertainment news magazine.

"Goof Troop", animated television series, Walt Disney Productions.

"Miami Vice", television series.  
Amiga 1000's and video displays used as props.

"Montel Williams Show", daytime talk show.

"My Secret Identity", television series, PBS.

"Mysteries Beyond the Other Dominion", SciFi Channel.  
Produced by Toaster Marmalade of California.

"Neighbours", Australian television soap opera.

"Nick Arcade", Nickelodeon.

"Quantum Leap".  
Morph effects produced by The Post Group using MorphPlus.

"Robocop", television series.  
Graphics created with Lightwave 3D.

"Roboflight", SciFi Channel.

"Rush Limbaugh", political satirist.

"Prisoners of Gravity", TVOntario.

"seaQuest DSV", NBC.  
Starring Roy Scheider.  
Effects produced by Amblin Imaging and 60 Video Toasters.

"Tail Spin", animated television series, Walt Disney Productions.

"Total Panic", Nickelodeon.  
Mandala interactive video walls.

"Unsolved Mysteries".  
Video Toaster effects created by Joe Conti.

"Where in the World is Carmen Sandiego", PBS & Walt Disney  
Productions.

"Wild Side", Nickelodeon.

#### Specials

"45th Annual Primetime Emmy Awards"  
Video Toaster effects created by the Post Group.

Advertising Club of New York's Annual Awards Ceremony.

American Music Awards.

Showtime's "World Class Kickboxing Championships".

"This Country's Rockin'", documentary about America, NBC.

#### Stations

900 NBC Television Stations.

Atlantic City, New Jersey (channel identification unknown).

Israeli television (station identification unknown).

Used to display live images on a children's game show (name unknown). Also used for set design.

KDKA in Portland, Oregon (channel unknown).

KNBC in Los Angeles, California (channel unknown).

KOMO in Seattle, Washington (channel unknown).

KRON in San Francisco Bay Area (channel unknown).

Nickelodeon.

SciFi Channel.

WBZ in Boston, Massachusetts (channel unknown).

WSTM 3 in Syracuse, New York.

NBC affiliate.

## Virtual Reality

BattleTech Center, virtual reality games in Chicago, Illinois.

Amiga generated graphics.

Dactyl Nightmare, virtual reality arcade game by Virtuality.

Amiga generated graphics and system control.

VR Slingshot, 3D virtual reality consumer game.

Amiga based networked space flight simulator.

VIVI v2.1u
Versie 2.1u is een update van versie 2.1
uit 1990. In v2.1u zijn 50 NIEUWE LEVELS
gedefinieerd in plaats van de 50 levels
uit de oude versie van het verslavende
spel VIVI. Speciaal voor de VIVI-junks
onder ons. Veel plezier met VIVI 2.1u!

-> CrunchMania #2

S-EXEC.LHA 6220 17-Jun-94 [000]  
-> Amiga Cruncher. Jobbar med P-Crunchningsprincipen

DOSTRACE213.LH 24030 17-Jun-94 [000]  
-> DosTrace. Fungerar ungefär som SnoopDos, dvs den ger dig hela tiden fortlöpande information om alla diskaccesser som sker ifrån en viss CPU.

A!BNA372.LHA 25844 17-Jun-94 [000]  
-> Ett mycket smart program som kan skicka BREAK signaler till taskar, där du bara specificerar deras namn.

FORTH.DMS 25654 17-Jun-94 [000]  
-> En FORTH-kompilator till Amigan. Alla som varit med i den riktiga hackersvängen vet vad forth är för något!

FORTH.LHA 67583 17-Jun-94 [000]  
-> Forthkompilator! Alla som var med i den riktiga hackersvängen vet vad forth är, och hur suveränt det är att programmera i! Varje programmerare skapar snabbt sin egen miljö i forth, och det är hackerns drömsystem nr 1!

KCON1\_2.LHA 114078 11-Jun-94 [000]

-> King-CON version 1.2 En mycket bra CON: som har bl.a filenamecompletion, dragbars för scrollbarbuffrar, mm.

REGO.LHA 17877 17-Jun-94 [000]

-> Databas för att hålla reda på var man kan registrera program någonstans. Denna databas kommer att användas för Amigan inom SSF så småningom.

REQCHANGE-2.01 183651 11-Jun-94 [000]

-> Patchar dina requestrar under 2.0 så du får requesttools requestrar i stället.

RT22AUSR.LHA 172502 11-Jun-94 [000]

-> RequestTools 2.2 Ett måste för programmeraren!

ARTM2\_0.LHA 79252 17-Jun-94 [000]

-> Amiga RealTime Monitor. Ett suveränt program för att övervaka ditt systems processer samt taskar. Klarar fönster, portar, signaler och mycket mycket mera. Ett måste för den som multitaskar för att behålla total kontroll över maskinen. Ett bra verktyg!

KINGCO13.LHA 130932 17-Jun-94 [000]

-> KingCon 1.3 - Den ultimata CON: utilityn. Ger dig scrollbar i fönstren, filenamecompletion och många andra finesser...

HELIX-20.ZIP 32579 11-Jun-94 [001]

-> HAM:Ett program för att hjälpa dig designa HELIX-antenner.

JPOLE.LHA 18748 14-Jun-94 [000]

-> This is a UUencoded IBM PC MSDOS program for calculating the measurements for a Jpole antenna for any one frequency in the VHF and UHF range. This version (v1.1) replaces an older jpole program I did a week ago, as that one had an annoying bug: enter something other than a number for the frequency, and it would get hung. ^C to escape that. The below new version doesn't have this bug. The old C scanf bug. Hey, I'm learning :-) Besides, this version takes less disk space. And looks better. Now, you can make Jpoles for something other than 2 meters.

LOGYAG16.ZIP 33179 11-Jun-94 [001]

-> Konstruera logperiodiska Yagi-Antenner.

LOGGER-4.LZH 396597 11-Jun-94 [000]

-> HAM:Testloggprogram. Sköter dina loggar, medans du sköter din radio :=) Har speciella program för de vanligaste DX-Contest testerna.

VALHALL  
BBS

Running on XenoLink BBS system

AMIGA \* FIDONET \* FUJINET \* DALANET \* MOOSE-NET \* USENET

In a Yugoslavian hotel: The flattening of underwear with pleasure is the job of the chambermaid.

In a Japanese hotel: You are invited to take advantage of the chambermaid.

In the lobby of a Moscow hotel across from a Russian Orthodox monastery: You are welcome to visit the cemetery where famous Russian and Soviet composers, artists, and writers are buried daily except Thursday.

In an Austrian hotel catering to skiers: Not to perambulate the corridors in the hours of repose in the boots of ascension.

On the menu of a Swiss restaurant: Our wines leave you nothing to hope for.

On the menu of a Polish hotel: Salad a firm's own make; limpid red beet soup with cheesy dumplings in the form of a finger; roasted duck let loose; beef rashers beaten up in the country people's fashion.

In a Hong Kong supermarket: For your convenience, we recommend courteous, efficient self-service.

Outside a Hong Kong tailor shop: Ladies may have a fit upstairs.

In a Rhodes tailor shop: Order your summers suit. Because is big rush we will execute customers in strict rotation.

Similarly, from the Soviet Weekly: There will be a Moscow Exhibition of Aets by 15,000 Soviet Republic painters and sculptors. These were executed over the past two years.

In an East African newspaper: A new swimming pool is rapidly taking shape since the contractors have thrown in the bulk of their workers.

In a Vienna hotel: In case of fire, do your utmost to alarm the hotel porter.

A sign posted in Germany's Black Forest: It is strictly forbidden on our black forest camping site that people of different sex, for instance, men and women, live together in one tent unless they are married with each other for that purpose.

In a Zurich hotel: Because of the impropriety of entertaining guests of the opposite sex in the bedroom, it is suggested that the lobby be used for this purpose.

In an advertisement by a Hong Kong dentist: Teeth extracted by the latest Methodists.

A translated sentence from a Russian chess book: A lot of water has been passed under the bridge since this variation has been played.

In a Rome laundry: Ladies, leave your clothes here and spend the afternoon having a good time.

In a Czechoslovakian tourist agency: Take one of our horse-driven city tours -- we guarantee no miscarriages.

Advertisement for donkey rides in Thailand: Would you like to ride

on your own ass?

On the faucet in a Finnish washroom: To stop the drip, turn cock to right.

In the window of a Swedish furrier: Fur coats made for ladies from their own skin.

On the box of a clockwork toy made in Hong Kong: Guaranteed to work throughout its useful life.

Detour sign in Kyushi, Japan: Stop: Drive Sideways.

In a Swiss mountain inn: Special today -- no ice cream.

In a Bangkok temple: It is forbidden to enter a woman even a foreigner if dressed as a man.

In a Tokyo bar: Special cocktails for the ladies with nuts.

In a Copenhagen airline ticket office: We take your bags and send them in all directions.

On the door of a Moscow hotel room: If this is your first visit to the USSR, you are welcome to it.

In a Norwegian cocktail lounge: Ladies are requested not to have children in the bar.

At a Budapest zoo: Please do not feed the animals. If you have any suitable food, give it to the guard on duty.

In the office of a Roman doctor: Specialist in women and other diseases.

In an Acapulco hotel: The manager has personally passed all the water served here.

In a Tokyo shop: Our nylons cost more than common, but you'll find they are best in the long run.

From a Japanese information booklet about using a hotel air conditioner: Cooles and Heates: If you want just condition of warm in your room, please control yourself.

From a brochure of a car rental firm in Tokyo: When passenger of foot heave in sight, tootle the horn. Trumpet him melodiously at first, but if he still obstacles your passage then tootle him with vigor.

Two signs from a Majorcan shop entrance:

- English well talking.
- Here speeching American.

O, /

o' \

Här kommer några citat ur THHGTTG. För oinitierade står förkortningen helt enkelt för "The HitchHikers Guide To The Galaxy", en "måste läsas" bok av Douglas Adams. Egentligen är det fem böcker i serien. Rekommenderad läsning

om det nu skulle bli en regning och otrevlig sommar...

Jonny "Bingo" Bringås håller på att läsa dem (han lånade min uppsättning när det blev för omöjligt att vara utan) ;-) Många visdomsord finns i dessa böcker...

#### OLD JANX SPIRIT

Ford stared at Arthur, and Arthur was astonished to find that his will was beginning to weaken. He didn't realize that this was because of an old drinking game that Ford learned to play in the hyperspace ports that served the madranite mining belts in the star system of Orion Beta.

The game was not unlike the Earth game called Indian Wrestling, and was played like this:

Two contestants would sit either side of a table, with a glass in front of each of them.

Between them would be placed a bottle of Janx Spirit (as immortalized in that ancient Orion mining song "Oh don't give me none more of that Old Janx Spirit/ No, don't you give me none more of that Old Janx Spirit/ For my head will fly, my tongue will lie, my eyes will fry and I may die/ Won't you pour me one more of that sinful Old Janx Spirit").

Each of the two contestants would then concentrate their will on the bottle and attempt to tip it and pour spirit into the glass of his opponent - who would then have to drink it.

The bottle would then be refilled. The game would be played again. And again.

Once you started to lose you would probably keep losing, because one of the effects of Janx spirit is to depress tele- psychic power.

As soon as a predetermined quantity had been consumed, the final loser would have to perform a forfeit, which was usually obscenely biological.

Ford Prefect usually played to lose. Here's what the Encyclopedia Galactica has to say about alcohol. It says that alcohol is a colourless volatile liquid formed by the fermentation of sugars and also notes its intoxicating effect on certain carbon-based life forms.

#### PAN GALACTIC GARGEL BLASTER

The Hitch Hiker's Guide to the Galaxy also mentions alcohol. It says that the best drink in existence is the Pan Galactic Gargle Blaster.

It says that the effect of a Pan Galactic Gargle Blaster is like having your brains smashed out by a slice of lemon wrapped round a large gold brick.

The Guide also tells you on which planets the best Pan Galactic Gargle Blasters are mixed, how much you can expect to pay for one and what voluntary organizations exist to help you rehabilitate afterwards.

The Guide even tells you how you can mix one yourself.

- ø Take the juice from one bottle of that Ol' Janx Spirit, it says.
- ø Pour into it one measure of water from the seas of Santraginus V - Oh that Santraginean sea water, it says. Oh those Santraginean fish!!!
- ø Allow three cubes of Arcturan Mega-gin to melt into the mixture (it must be properly iced or the benzine is lost).
- ø Allow four litres of Fallian marsh gas to bubble through it, in memory of all those happy Hikers who have died of pleasure in the Marshes of Fallia.
- ø Over the back of a silver spoon float a measure of Qualactin Hypermint extract, redolent of all the heady odours of the dark Qualactin Zones, subtle sweet and mystic.
- ø Drop in the tooth of an Algolian Suntuiger. Watch it dissolve, spreading the fires of the Algolian Suns deep into the heart of the drink.
- ø Sprinkle Zamphuor.
- ø Add an olive.
- ø Drink ... but ... very carefully ...

#### TOWELS

The Hitch Hiker's Guide to the Galaxy sells rather better than the Encyclopedia Galactica. The Hitch Hiker's Guide to the Galaxy has a few things to say on the subject of towels.

A towel, it says, is about the most massively useful thing an interstellar hitch hiker can have. Partly it has great practical value - you can wrap it around you for warmth as you bound across the cold moons of Jaglan Beta; you can lie on it on the brilliant marble-sanded beaches of Santraginus V, inhaling the heady sea vapours; you can sleep under it beneath the stars which shine so redly on the desert world of Kakrafoon; use it to sail a mini raft down the slow heavy river Moth; wet it for use in hand-to-hand-combat; wrap it round your head to ward off noxious fumes or to avoid the gaze of the Ravenous Bugblatter Beast of Traal (a mindboggingly stupid animal, it assumes that if you can't see it, it can't see you - daft as a bush, but very ravenous); you can wave your towel in emergencies as a distress signal, and of course dry yourself off with it if it still seems to be clean enough.

More importantly, a towel has immense psychological value. For some reason, if a strag (strag: non-hitch hiker) discovers that a hitch hiker has his towel with him, he will automatically assume that he is also in possession of a toothbrush, face flannel, soap, tin of biscuits, flask, compass, map, ball of string, gnat spray, wet weather gear, space suit etc., etc. Furthermore, the strag will then happily lend the hitch hiker any of these or a dozen other items that the hitch hiker might accidentally have "lost". What the strag will think is that any man who can hitch the length and breadth of the galaxy, rough it, slum it, struggle against terrible odds, win through, and still knows where his towel is is clearly a man to be reckoned with.

Hence a phrase which has passed into hitch hiking slang, as in "Hey, you sass that hoopy Ford Prefect? There's a frood who really knows where his towel is." (Sass: know, be aware of, meet, have sex with; hoopy: really together guy; frood: really amazingly together guy.)

#### SIZE OF THE GALAXY

For light to reach the other side of the Galaxy, for it to reach Damogran for instance, takes rather longer: five hundred thousand years.

By a totally staggering coincidence that is also the telephone number of an Islington flat where Arthur once went to a very good party and met a very nice girl whom he totally failed to get off with - she went off with a gatecrasher.

Några spridda "cookies"...

A bird in the bush usually has a friend in there with him.

A bird in the hand is worth what it will bring.

A bore is someone who persists in holding his own views after we have enlightened him with ours.

A budget is just a method of worrying before you spend money, as well as afterward.

A candidate is a person who gets money from the rich and votes from the poor to protect them from each other.

A celebrity is a person who is known for his well-knownness.

A chubby man with a white beard and a red suit will approach you soon. Avoid him. He's a Commie.

A city is a large community where people are lonesome together

Att bli fortsättad...

$$\frac{\overline{f}}{\sqrt{\frac{f}{n}}} = \frac{\overline{f} - \mu_f}{\sqrt{\frac{f}{n}}} + \frac{\mu_f}{\sqrt{\frac{f}{n}}} = \frac{\overline{f} - \mu_f}{\sqrt{\frac{f}{n}}} + \frac{\mu_f}{\sqrt{\frac{f}{n}}} \cdot \frac{\sqrt{n}}{\sqrt{n}}$$

EN DAG I EN SYSOPS LIV

Anders Pettersson

- <?:??> Vaknar... tittar upp i taket, jodå byggnaden verkar inte ha rasat under trycket från alla users som försöker storma den. Jaha... det kanske bara var en dröm eller nått. Vi kallar det CyberSpace så var det lungt.
- <13.44> Skriver "Date" på terminalen. Upptäcker att vi faktiskt vänt på dygnet för 4:e gången den här veckan. Konstigt nog verkar det omöjligt att vara vaken på dagen. Eller sova på natten. Kanske har det en del med teletaxor, illuminati och discordia att göra. Nåja. Konstaterar i vilket fall att frukost är det inte längre att tänka på. Tar fram ett par ägg, en skiva bacon, slänger dem i stekpannan. Väntar några minuter, kallar dem måltid och äter upp dem. tervänder till datorhallen för att vädra.
- <14.01> Första yellen. Herrejävlar, nu är han där och klantar sig igen. Hur i hela friden skall man någonsin kunna få vara ifred. Och alla dessa users överallt. Inte kan de läsa heller... jaja, det är väl bäst man svara då. Vaddå? Kan inte ladda hem filen? Nä, du har tankat klart här på länge om du inte tankar upp någe snart. Eller skriv ett par brev snorting. Kommer just på att det är ikväll BUA har möte (BBS'er Utan Användare), kvällens ämne handlar om hur man kan utveckla ett nytt ANSI-format som tar 20 ggr längre tid än det nuvarande, men i gengäld sända iväg S-VGA i 256000 färger via modem. Bara för att vara "annoying".

<14.04> Usern loggar ut. Genast loggar en anna in. Yellar. Jag trycker "ignore" och njuter i fulla drag av hans frustration. Jag känner mig riktigt genomruten i ganska precis 2 minuter innan jag ger honom en "hangup with linenoise" och placerar hans namn i "trashcan.ctl". Jahaja... undrar om man har några mailinglistor man kan skicka på någon stackare på. Hmm... man kanske skulle sätta upp den där LBL på mailinglistan 'alt.sex.bestiality.ducks-n-cats.taiped' eller nånting... det kunde han behöva...

<14.38> Dax att göra en backupp kanske?

<14.39> Nä.

<15.04> Ringer bossen. Varför kommer inte R20\_TRASHCAN fram som det skall? Problem? Men lös dem då! Inte hos dig? Nänä... Det är som vanligt då. Det är aldrig dina filer som innehåller virus, aldrig dina brevpaket som är korrupta, aldrig ditt modem som inte kan sköta en normal "negotiation" riktigt... Släng ditt HST...

<15.52> Ringer Felia för att få en ny nod. Inga lediga par? Vad betyder det? Bärfrekvens? Jag vet vad ni kan göra med er BF-utrustning, ni kan ta och stoppa upp... Va? Ohövlighet? Jag? Aldrig! Dra fram min nya lina och knip käft! Va? Vad jag skall med 11 telefonlinor till och ingen är företagsabonnemang? Jag har ett starkt beroende av att faxa förstår fröken! Va? Inte? Dra bara fram linan... jaja... i morgon? Ja, det blir bra...

<16.22> Drar igång Spot för att läsa en smula mail. Satan. 1130 personal mail. Nåja, de skall nog få svar på tal. Morr...

<02.16> Skummat mailen. Nu kan man nog börja svara på den också.

<07.19> Läst det viktigaste och rättat ett gäng dumma inlägg från folk som egentligen borde läsa manualer. Undrar om det kommit några nya filer då? Orkar verkligen inte bry mig, måste få sova en smula någon gång... tar det i morgon...

/Pettson

Anders Pettersson

Så här kan det se ut när det loggar in en kewl d00de och skall svara på mina frågor i BBS-en...

---

>1. What is your age?

IM 13 D00D!! WANNA MAKE SUMTHIN OF IT???????

>2. What is your sex?

I SCR00D A GRIL WUNCE IT WAS AWSUM!!!!!! BUT SHE WUZ BUTT-UGLY SO NO MOR SEX!! XCEP MAYBE MIKEL JAXON BECUZ HE PAYZ 10 MILYUN \$\$\$\$!!

>3. Describe the Computer System (Hardware) you call BBS's using?

C-64 FOREVER!!!!!!!!!!!!111111 AND A MODUM!!!!!! I GOT A BLACK & WITE ONE

>4. How much Hard Drive Space do you have?

I DONT NEED A HARD DRIV I GOT TOO FL0PPIS!!!! AND I BET U DIDNT NO U CAN CUT A HOLE IN FLOPPIS AND RUN THEM UPSIDE DOWN!!!!

>5. What is your fastest modem speed? What Brand modem?

I JUST GOT A NEW 1200 BOD MODUM ITS RELLY RELLY FAST!!!!!!!!!!!!!! NOW I CAN D/L WAREZ AND IT DONT TAKE ALL DAY!!!! BUT I HAVE CAN D/L MORE K00L GAMES IN THAT EXTRA TIME!!!!11

>6. What City and State, or province, or Part of country are you in?

IM IN THE MIDDLE PART!!!!!!!!1111 HA HA HAHA HA!!!! I WONT TELL YOU WERE I LIVE BECUZ U MIGHT TELL THE COPS!!!!

>7. What Country?

CUNTRY SUX!!!! HEAVY METTAL RULEZ!!!

>8. Why do you call BBS's?

I TRIED TO TALK TO BBS WITH JUST MY BRANE WAVES BUT IT HURTS TOO MUCH SO I HAV 2 CALL!!!!!! AND I CAN D/L MORE GAMEZ WITH CALLING THAN MY BRANE.

>9. What terminal software do you use? Name and version?

WHATS A S0FTWEAR??????? I SEEN THAT WORD S0FTWEAR WUNCE IN A GAME I D/L IT SAID CRACKED BY D0CTER S0FTWEAR!!!!!!!!!!!!!! IS TERMAINAL S0FTWEAR A NU NAME 4 D0CTER S0FTWERE??? IT SUX I LIKD HIZ OLD NAME.

>10. About how many times do you login in a weeks time?

JUST WUNCE AND I STAY LOGG ON ALL DAY! ALL WEEK! I NEVER HANG UP BECAUSE I CAN D/L ALL THE WAREZ! AND EVRY-1 ELSE GETS A BUZY S1GNUL!

>11. About how long do you stay on-line each session?

TIL DAD F1NDS ME AND MAKES ME HANG UP AND DO H0MWERK! HES A REEL BASTURD I H0PE HE GETS SIFILIS!!

>12. What is your favorite BBS's name?

VALHALL! BUT DONT TELL ITS A SECRET.  
U HAV 2 B ELITE LIK ME!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

>13. What is it's main phone number?

0240-535-15 AND THE PASSWERD IZ C64D00D!!!

>14. What is the hours of operation?

I WONT TELL CUZ THEN YOUL GET ON AND TAKE ALL MY TIME!

>15. What do you find there?

HOT GAMEZ AND WAREZ!!!! AND HES GOT A BIG XRATED SECTION THAT HE  
LETS ME INTO EVEN THO IM 13. I DL LOTS OF GIF PHILEZ BUT CANT  
FIGGER HOW TO READ????????????????????????????????????  
PLEEZ HELP!!!!!!!!!!!!????????????????????

>16. If you can, please tell us what software they are using?

I DUNNO ITS THE WUN WITH THE MENUS AND FILEZ AND STUFF! MAYBE  
IT WUZ WINDOWS I HERD WINDOS HAS LOTS OF WAREZ FILES!!!

>17. What are the features you like?

THE SISOP LETS ME C THE XRATED PART!!!!!!!!!!!!!!!!!!!!111111

>18. What are the features you don't like?

I CANT FIND ANYONES PASSWERDS!!!! IM A GRATE HACKER BUT I CANT  
FIGGER OUT PASSWERDS!!!! NOT FARE!!!

>19. How could the sysop/system administrator improve the system?

MAKE ME THE COSISOP!!!! AND MOVE HIS KOMPUTOR T0 MY H0USE!!!  
AND HIZ MONITER TOO I DONT LIKE B/W TV!

>20. Is it a Pay BBS system? How much a year/month/week(Pick one)?

WHATS A PAY BBS????????????????????????? PAY FER WAREZ?????????  
THATS STOOPID!!

>21. If you where to get the perfect BBS, what would you want to  
> see, what features, what do you want. Please be specific, and  
> please be as long winded as you wish!

A PERFECT BBS WOUD HAVE ME 4 A SISOP AND ALL THE UZERS WOUD B  
MY SEX SLAVES AND ID HAV ALL THE PASSWERDS!!!!!!!! AND THERED  
BE A BIG XRATED SECTION BUT MY DAD WOUDNT NO!!!! AND LOTZ OF  
WAREZ FOR THE AWESUM C64 GAMEZ AND STUFF. IT WOUD HAVE 3  
FLOPPI DRIVES BUT NO HARD DISKS THOSE ARE FER SISSIES WHO HAVE  
TO MUCH MONEY!!!!!!!! OH YEAH SPEAKING ABOUT MUNY DAVE  
RHODES IS AWESUM HED BE CO-SISUP AND WE MAKE EVERY-1 READ OUR  
MAKE.MONEY.FAST BUT I BEAT UP DAVE RHODES AND TAKE HIS MONEY  
AND BY A NU JOYSTIK!!!!!!!! EVRY DAY!!!! HAHAAHAHAHAHA!!!!  
AND ID MAKE NU USERS U/L ALL THERE WAREZ FILES ON THERE FIRST  
CALL BUT THEN HANG UP!!  
HAHAHAHAHAHAH!!!!!!!!!!!!!!!!!!!!
